

Certifications for IT Professionals

| | CERTIFICATION | DESCRIPTION | JOB TITLE |
|-----------------|--|--|---|
| WINDOWS SERVER | MCSA (Classic): Microsoft Certified Systems Administrator | Validates the skills to successfully implement, manage, and troubleshoot Microsoft Windows system environments | Network or Systems Administrator |
| | MCSE (Classic): Microsoft Certified Systems Engineer | Validates your expertise in designing and implementing the infrastructure for business solutions based on the Microsoft Windows 2000 platform and Microsoft Windows Server System | Systems Engineer, Tech Support Engineer, Systems Analyst, Consultant |
| WINDOWS VISTA | MCTS: Windows Vista—Configuration | Validates the knowledge and skills to configure Windows Vista for optimal performance on the desktop, including installing, managing, and configuring the new security, network, and application features in Windows Vista | Administrator Specialist, Technician |
| | MCITP: Consumer Support Technician | Validates the skills necessary to support a broad range of issues including consumer desktop operating system, desktop application, mobile device, networking, and hardware support issues related to the Windows Vista operating system | Help Desk Technician, Customer Support Rep, PC Support Specialist, Tech Support Rep |
| | MCITP: Enterprise Support Technician | Validates a high level of knowledge and the skills needed to support end users in medium-sized or enterprise environments—includes the knowledge and skills to diagnose and resolve all types of desktop support issues and issues involving mobile and personal devices | Enterprise Support Technician |
| SQL SERVER | MCTS: SQL Server 2005 | Validates the ability to implement and maintain databases using specific instructions and specifications | Database Administrator, Database Developer |
| | MCTS: SQL Server 2005—Business Intelligence Tools | Validates the ability to implement and maintain business intelligence solutions | Business Intelligence Developer |
| | MCITP: Database Administrator | Validates the ability to manage enterprise business solutions 24 hours a day, 7 days a week | Database Administrator |
| | MCITP: Database Developer | Validates the ability to design a secure, stable, enterprise database solution by using Microsoft SQL Server | Database Developer |
| | MCITP: Business Intelligence Developer | Validates the ability to design analysis solutions, data transformations, and reports | Business Intelligence Developer |
| EXCHANGE SERVER | MCTS: Exchange Server 2007—Configuration | Validates the skills needed to deploy and administer an enterprise messaging environment with Microsoft Exchange Server 2007 | Systems Administrator, Systems Engineer, Designer |
| | MCITP: Enterprise Messaging Administrator | Validates the skills associated with performing as the lead engineer for messaging solutions within an enterprise organization as well as the ability to design and deploy messaging solutions with Microsoft Exchange Server 2007 | Coder, Designer, Administrator, Developer, Engineer |
| SHAREPOINT | MCTS: Office SharePoint Server 2007—Configuration | Validates the ability to configure Microsoft Office SharePoint Server 2007 Portal, manage search, configure content management, configure business forms, manage business intelligence, and manage the administration and deployment of SharePoint Server 2007 | Systems Administrator, Systems Engineer, Designer |
| | MCTS: Windows SharePoint Services 3.0 Configuration | Validates the skills needed to configure Microsoft Windows SharePoint Services 3.0 and focuses on deploying, monitoring, administering, customizing, securing, and configuring Network Infrastructure for Windows SharePoint Services | Systems Administrator, Systems Engineer, Designer |

Certifications for Developers

| | CERTIFICATION | DESCRIPTION | JOB TITLE |
|---|--|--|--|
| VISUAL STUDIO | MCAD (Classic): Microsoft Certified Application Developer | Validates the ability to use Microsoft Visual Studio .NET and the Microsoft .NET Framework 1.0 and 1.1 to develop, deploy, and maintain department-level applications and components for Microsoft Windows and the Web | Software, Web, or Windows Developer; Systems Administrator; Systems Engineer |
| | MCSA (Classic): Microsoft Certified Solution Developer for .NET | Validates the ability to design and develop multiple applications including desktop, multi-user, Web-based, n-tier, and transaction-based applications with Microsoft .NET Framework 1.0 and 1.1 | Software Engineer, Application Analyst, Architect Consultant |
| | MCTS: .NET Framework 2.0—Web Application Development | Verifies a demonstrated depth of skills in Web application technology and data access in Web applications | Web Developer, Windows Developer, Enterprise Application Developer |
| | MCTS: .NET Framework 2.0—Windows Application Development | Verifies skills in Windows Forms technology, in addition to expertise in data access in Microsoft Windows applications | |
| | MCTS: .NET Framework 2.0—Distributed Application Development | Verifies skills in Web services, .NET Framework remoting, Enterprise Services, and Message Queuing technology | |
| | MCPD: Web Developer | Verifies the skills required to build interactive, data-driven Web applications that use ASP.NET 2.0 for both intranet and Internet purposes | |
| MCPD: Windows Developer | Verifies the skills required to build rich client applications that target the Windows Forms platform using the Microsoft .NET Framework 2.0 | | |
| MCPD: Enterprise Application Developer | Verifies the skills required to build n-tier solutions that target both Web and rich-client user experiences | | |

Microsoft Learning

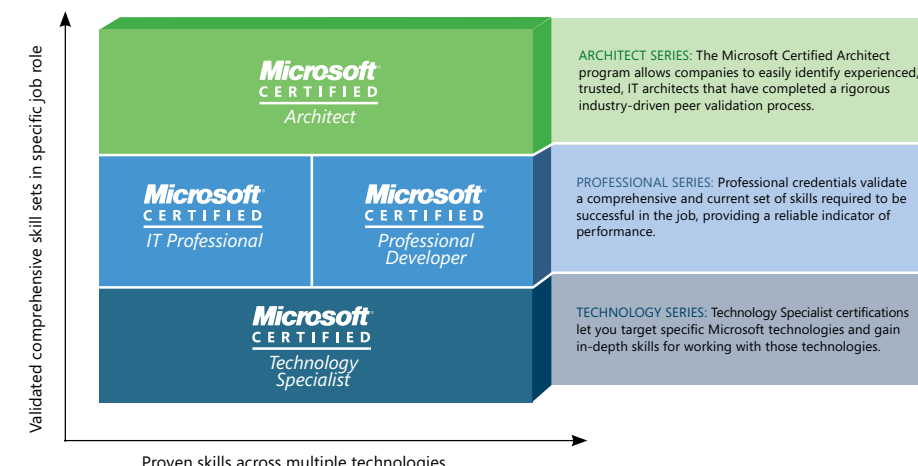

Microsoft Press® Training Resources

With Corresponding Certification Exams

Quick Reference

FRAMEWORK FOR THE NEW GENERATION OF MICROSOFT CERTIFICATIONS

The new generation of Microsoft certifications is more specific and targeted to reflect the detail of what you do and to prove your expertise to those who need to know.

Consisting of three series and four credentials, the new generation of Microsoft certifications provides a simpler and more targeted framework for IT managers and developers to validate core technical skills, professional skills, and architectural skills. It also provides professionals with a more relevant, flexible, and cost-effective way to showcase their skills.

This brochure contains a quick reference of Microsoft Press Training Kits and related books that help candidates prepare for Microsoft certification exams.

Classic & New Generation Exams

With Corresponding Microsoft Press Training Resources

Microsoft Press® Training Kits are designed to help maximize performance on Microsoft Certification exams. These kits are packed with the tools and features exam candidates want most, including in-depth, self-paced training based on final exam content; rigorous, objective-by-objective review; exam tips from experts, exam-certified authors; and robust testing suites. They also provide real-world scenarios, case study examples, and troubleshooting labs for skills and expertise that can be applied to the job. Candidates can ace their exam preparation and ramp up quickly by working at their own pace through the lessons, hands-on exercises, and practice tests.

In addition to training kits, Microsoft Press also offers comprehensive reference books written by industry experts and those closest to the technology. These books deliver the accurate, from-the-source information exam candidates need to take their skills and knowledge to the next level.

Classic Exams

| | EXAM NUMBER | ISBN | TITLE | |
